BIRDS

ARTISTIC PHOTO COLLECTION

Every picture tells a story. That is so true, and with the quality photos we've gathered and assembled into this **bird themed bundle**, your options for story telling are unlimited. But... we've gone a step further and **created multiple artistic renderings of each photo**, so that your pictures can have a unique creative flair!

On the top two slides following this description, you will be able to samples of the three ways that we have varied this pictorial content for your creative use. The sequence is as follows: original photo, modern art (simplified or abstract), Pointillist and grayscale.

You get four versions of each individual photo. All images are in .JPG format.

Below is a more detailed breakdown of what you will get in each collection.

- ✓ **Original Photos** (.jpg format)
- ✓ **Modern Art Version** (.jpg format) Simplified or abstract.
- ✓ **Pointillist or Stippled Version** (.jpg format) - Color speckled and optimized.
- ✓ **Grayscale version** (.jpg format)
- ✓ **Restricted Private Label Rights** to all of the above. You can use them however you like, but you cannot pass on these rights (or Resale rights of any type) to others.
- ✓ **This is Premium Proprietary Content** -- The only place you can get it is here at WOW, and we need to **protect its exclusivity and long term value** by only making it available to you - our valued customers.
