Artistic Photo Collection

Every picture tells a story. That is so true, and with the quality photos we've gathered and assembled into topical bundles below, your options for story telling are unlimited. But... we've gone a step further and created multiple artistic renderings of each photo, so that your pictures can have a unique creative flair!

On the left of each collection displayed below, you will see thumbnails of all the pictures in the individual bundles. To the right, you will see samples of the three ways that we have varied this pictorial content.

The sequence is as follows: original photo, modern art, optimized stippled and grayscale. You get 4 versions of each photo in .JPG format.

Below is a more detailed breakdown of what you will get in each collection.

- ✓ **Original Photos** (.jpg format)
- ✓ **Modern Art Version** (.jpg format)
Simplified or abstract.
- ✓ **Pointillist or Stippled Version** (.jpg format) – Color optimized.
- ✓ **Grayscale version** (.jpg format)
- ✓ **Restricted Private Label Rights** to all of the above. You can use them however you like, but you cannot pass on these rights (or Resale rights of any type) to others.
- ✓ **This is Premium Proprietary Content** -- the only place you can get it is here at WOW, and we need to protect its exclusivity and long term value by only making it available to you – our valued customers.
